Forestry Industry

State of Play

SAWN WOOD PRODUCTS

Timber beams, furniture, wood panels, engineered wood products.

PULP & PAPER PRODUCTS

Paper, cardboard, tissues, newspaper, nappies, sanitary products, and paper towels.

RECYCLING

Recovered paper and cardboard are turned into boxes, corrugated board, newsprints, pet care products, moulded fibre products, and packaging papers.

SUSTAINABLE **FOREST MANAGEMENT**

Creates firebreaks, reduces fuel loads, fights invasive species.

CARBON STORAGE IN BUILT ENVIRONMENTS

Timber in design and construction stores carbon and it remains locked in the wood for the life of the piece of timber.

SERVICES

ECOSYSTEM

NON-WOOD FOREST PRODUCTS

Edible plants, fruits, nuts, honey, aromatic plants, bee wax, natural remedies, Christmas trees, saps, gums, cork products.
