

Green Triangle
Forest Industries Hub

INVITATION TREES INTO FARMING LAUNCH

Join the Green Triangle Forest Industries Hub as it shares its plans to contribute to the nation's growing timber demands. This includes partnerships with local landowners to introduce trees into farming, developing new income streams whilst providing social and environmental benefits for the region.

TIM WOODS

IndustryEdge, Managing Director

The Green Triangle has the capacity to 'build the nation' but it urgently needs additional fibre resource to meet growing domestic and global demand.

BRADEN JENKIN

Sylva Systems, Managing Director

Learn how your land could earn new income, gain carbon credits and contribute to meeting the nation's wood fibre demands through this new collaborative approach to plantation development.
